

Biological Informatics Resources

By

Marcus P. Zillman, M.S., A.M.H.A.
Executive Director – Virtual Private Library
zillman@virtualprivatelibRARY.com

This April 2009 column **Biological Informatics Resources** is a comprehensive list of resources and sites that give you the latest and most important information concerning biological informatics resources available over the Internet including biological informatics, health informatics, neuroinformatics, biodiversity informatics and biomolecular informatics resources. The below list is taken from my Biological Informatics Subject Tracer™ Information Blog and is constantly updated with Subject Tracer™ bots at the following URL:

<http://www.BiologicalInformatics.info/>

These resources and sources will help you to discover the many pathways available to you through the Internet for obtaining and locating biological informatics in todays rapidly changing biological global marketplace. This is a MUST information keeper for those concerned about the latest happenings in the biological information business and services environment!

Figure 1: Biological Informatics Subject Tracer™ Information Blog

Subject Tracer™ Information Blogs:

Subject Tracer™ Information Blogs created and developed by the Virtual Private Library™ combine the best of the latest tools on the Internet. Using bots, blogs and news aggregators the Subject Tracer™ Information blogs generate RSS feeds with the latest resources to create a current information resource flow through niched subject tracers. I am proud to be the creator of the Internet's first Subject Tracer™ Information Blogs:
