Executive Director - Virtual Private Library
<http://www.VirtualPrivateLibrary.org/>

Current awareness has become a very timely topic with professionals and business executive/entrepreneurs especially those suffering from information overload in today's dynamic internet based information economy. It is no longer a "nice to have" resource but rather a "must have" internet tool that is part of our daily business routine! Obtaining these current awareness tools and constantly discovering the current happenings and information on the Internet is the driving force behind the creation of this white paper. This white paper will list the best and most competent current awareness resources available for the professional and business executive/entrepreneur in the following detailed subject classifications:

Articles and Trade Journals

Listservs®

News Groups, Message Boards and Forums

eMail Alerts

Web Site and Page Monitoring Bots

WebLogs

RSS Feeds

News Aggregators

Subject Tracer™ Information Blogs

Search Engines, Answer Engines and Subject Trees

Articles and Trade Journals

Articles, Papers and Trade Journals offer a plethora of current awareness resources from eMail alerts to table of contents alerts and emails. These articles, papers and journals arrive in a timely manner, are professionally designed and written, and as a rule are easily accessible both online and offline. The following resources will aid you in finding the

Listservs®

Listserv®, Majordomo and related mailing list software have been used to create specific subject based mailing lists for years on the Internet. I have always considered mailing lists to offer one of the very best methods to stay current on your profession or business career. I personally still belong to hundreds of selected and niched mailing lists that keep me constantly current in key areas. The following is a resource of information on Listservs® (mailing lists) as well as search entities that allow you to find and subscribe freely to the list closely related to your profession and/or business career. Also mailing lists only require an active email account and I would recommend that you create a separate eMail account to subscribe your new lists to. Also you may set up list mail file folders in your email inbox to keep your mailing list subscription emails separated and easy to manage and search. Using Listservs® to keep up to date is extremely important:

eMail Alerts

eMail Alerts allow current awareness monitoring via eMail with notification instantly. These alerts allow you to quickly identify and access new current awareness information as well as breaking news in your identified profession or business niche. eMail alerts can be forwarded to your cell telephones as well as to other PDAs. Custom alerts services are also available to alert you on many different areas and requirements based upon your profession and needs.

Web Site and Pages URL Monitoring Bots and Resources

Web site and web page URL monitoring allows you to monitor key websites and related pages of information for current awareness updates and changes that will affect your profession or business. These bots monitor the web pages or sites that you desire on a 24/7 basis and send you an email upon the sites and related pages update or change. These services are available as web applications as well as software that you must install. Many of the services are available at little or no cost. I have used these services for years and without a question they are extremely beneficial for key current awareness monitoring and updates on the Internet.

of current awareness information and data. Corporate blogs through their intranets as well as throughout the Internet are now coming into the mainstream. My blog was created five years ago and just awarded as one of the top 10 informational blogs available for information search and research on the Internet. Blogs and current awareness are subjects that will continue to grow exponentially into the future!! Some very competent resources for current awareness and blogs are:

NEWS AGGREGATORS AND RSS FEEDS

News aggregators and the related RSS News Feeds are the backbone of WebLogs (Blogs) ability to disseminate the ongoing current awareness information to the Internet global community. Aggregating the key blogs that you are monitoring for current awareness and updates can now be created either by installed browser software called News Aggregators or you may use some of the brand new web applications that require no software installation on your computer. The latest News Aggregators read the RSS news feeds and can be updated by a click of a button or you may preprogram the news aggregator to update in certain time frames. The latest News Aggregators feature “auto-discovery” that allows the news aggregator to automatically discover the related RSS feed associated with the blog that you subscribe to. My news aggregator currently monitors and updates over 200 RSS newsfeeds every 15 minutes that allows me to keep current with all blogs that I monitor for updates and current happenings.
